Management Accounting

A two-day seminar for managers in the new economy

Training objectives

The purpose of this seminar is to:

- Communicate the importance of Management Accounting (MA) in a competitive world
- Equip the participants with fundamental MA development skills
- Explain how to assess the MA requirements for different types of organization

Training method

The training method involves:

- Description of the theory
- Reinforcement of the theory by case studies
- Involvement of the participants by techniques such as role play and games
- Reinforcement of the learning by techniques such as mini-quiz
- Resolution of queries by question-and-answer

Training content

The training covers topics such as:

- The History of Management Accounting
- The Difference between MA and Statutory Accounting
- The Role of Transaction Recording Software in MA
- The Importance of MA in Business Planning and Budgeting
- The Importance of non-dollar values in MA
- The Role of Performance Measurement in MA
- Linking MA to Business Processes and the Value Chain
- Linking MA to Personnel
- The Importance of MA to Corporate Survival

Who should attend

The seminar is intended for CFOs, Senior Executives, Managers, Supervisors and HR staff
